**Memorandum of Understanding
Between
The Department of the Interior, Bureau of Land Management,
Price Field Office
And the
State of Utah
Public Lands Policy Coordinating Office
as a Cooperating Agency
for Travel Management Planning**

I. Introduction

This Memorandum of Understanding (MOU) establishes a cooperating agency relationship between the Bureau of Land Management's Price Field Office ("BLM") and the State of Utah ("Cooperator") for the purpose of preparing the San Rafael Desert and San Rafael Swell Travel Management Plans ("TMP"). The San Rafael Desert TMP and San Rafael Swell TMP will be completed separately; however, this MOU will be relevant for each.

The BLM is the lead federal agency for development of these TMPs. The BLM acknowledges that the Cooperator has special expertise applicable to the TMP efforts, as defined at 40 CFR 1508.15 and 1508.26. This MOU describes responsibilities and procedures agreed to by the State of Utah, represented by the Utah Governor's Public Lands Policy Coordinating Office (PLPCO), as Cooperating Agency and the BLM ("the Parties").

The cooperating agency relationship established through this MOU shall be governed by all applicable statutes, regulations, and policies, including the Council on Environmental Quality's National Environmental Policy Act (NEPA) regulations (in particular, 40 CFR 1501.6 and 1508.5), the BLM's planning regulations (in particular, 43 CFR 1601.0-5, 1610.3-1, and 1610.4), and the Department of the Interior's Manual regarding NEPA (516 DM 2.5).

Attachment D shows the boundaries of the San Rafael Desert and San Rafael Swell Travel Management Areas (TMAs).

II. Purpose

The purposes of this MOU are:

- A. To designate PLPCO as a Cooperating Agency in the San Rafael Desert and San Rafael Swell TMP process.
- B. To provide a framework for cooperation and coordination between the BLM and the Cooperator that will ensure successful completion of the TMP/EA processes in a timely, efficient, and thorough manner.

- C. To recognize that the BLM is the lead agency with responsibility for the completion of the TMPs and the Decision Records (DR).
- D. To describe the respective responsibilities, jurisdictional authority, and expertise of each of the Parties in the planning process.
- E. Route designations do not signify a recognition or rejection of R.S. 2477 assertions. R.S. 2477 rights are determined through a process that is separate from the BLM's travel management planning process.
- F. As per the State of Utah v. Andrus, 486 F.Supp. 995 (D. Utah October 1, 1979 (Cotter Decision), the BLM is subject to granting the State of Utah reasonable access to state lands that is not so narrowly restrictive as to render the lands incapable of their full economic development.

III. Authorities for the MOU

- A. The authorities of the BLM to enter into and engage in the activities described within this MOU include, but are not limited to:
 - 1. National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).
 - 2. Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701 et seq.).
 - 3. Settlement Agreement in *Southern Utah Wilderness Alliance, et al, v. U.S. Department of the Interior, et al.*
- B. Regulations implementing the above authorities:
 - 1. Council on Environmental Quality regulations (40 CFR 1501 et seq.)
 - 2. BLM Planning regulations (43 CFR 1601 et seq.)
 - 3. BLM Designation of Areas and Trails regulations (43 CFR 8342 et seq.)
- C. The authorities for PLPCO to enter into this MOU include, but are not limited to:
 - 1. Title 17 of the Utah Code, generally and in particular Section 17-316, et Seq. And 17-50.317, et. Seq.

IV. Roles and Responsibilities

A. BLM Roles and Responsibilities

1. As lead agency, the BLM retains final responsibility for the TMP processes and the content of all TMP, NEPA, and decision documents. For the San Rafael Desert and San Rafael Swell TMPs, the BLM's responsibilities include making available to Cooperators, the public, and other stakeholders:

To the fullest extent consistent with its responsibilities as lead agency, the BLM will consider the officially approved and adopted State Resource Management Plan, the officially approved and adopted Emery County Resource Management Plan, the officially approved and adopted Sevier County Resource Management Plan, comments, recommendations, data, and/or analyses provided by the Cooperator in the TMP planning process, giving particular consideration to those topics on which the Cooperator is acknowledged to possess jurisdiction by law or special expertise. To the maximum extent possible, the TMP shall be consistent with such officially approved and adopted Resource Management Plans of the State of Utah and Emery and Sevier Counties. To the extent allowable by applicable law, regulation, and policy, the BLM will consider all reasonable route designation proposals submitted by Cooperators under at least one TMP NEPA alternative.
3. After consideration of the effect such releases may have on the BLM's ability to withhold this information from other parties, the BLM will provide the Cooperator with copies of documents underlying the TMP relevant to the Cooperator's responsibilities, including technical reports,

data, analyses, comments received, working drafts related to environmental reviews, and draft and final TMPs to the fullest extent practicable.

It is BLM's responsibility to inform the Cooperator of the level of confidentiality required for any shared information. It is the Cooperator's responsibility to comply with those confidentiality requirements. If the Cooperator has reason to believe it will be unable to comply with the confidentiality requirements, it will inform BLM of this inability before BLM shares the information with the Cooperator.

H. Coordination with the BLM's Contractor

Advanced Resource Solutions (ARS) serves as the BLM's contractor for:

- Public involvement (i.e., public scoping meetings, public comment collection)
